

A LIVE CULTURE & WELLNESS BENEFIT YOUR TEAM ACTUALLY USES

Give every employee access to live classes they choose.

Your company covers it. Each employee books the live yoga, fitness, and cooking classes that fit their schedule — and the whole team can cook together in a private cultural class.

25+

Global instructors & hosts

200+

Live classes every month

Up to 10 + 4

Fitness + cooking classes per employee, per month

Distributed teams don't lack perks. They lack moments shared in real time.

Perks go unused

Stipends and on-demand apps sit untouched. Self-paced content asks tired employees to find motivation alone.

Remote work is isolating

No hallway, no lunch table. Connection has to be designed in — it no longer happens by accident.

Generic wellness doesn't stick

One-off webinars are easy to ignore. People attend what is live, human, and already on the calendar.
